9. MAYOR'S BUDGET INSTRUCTIONS FOR THE SFHSS GENERAL FUND BUDGET FOR FISCAL YEAR 2023-2024 AND FISCAL YEAR 2024-2025: (Discussion)

The Mayor's Budget Instructions for the SFHSS General Fund Budget for Fiscal Year 2023-2024 and Fiscal Year 2024-2025 is available on the SFHSS webpage <https://bit.ly/3wsTF5S>

In accordance with the adopted Budget Approval Process legislation (Administrative Code Section 3.3) most departments need to hold one public meeting for public input on their departmental budget priorities after the Mayor issues budget instructions in December, and one hearing at least 15 days later and no later than February 14th to solicit public input on their budget submissions. Links to dates of these hearings and department budget submissions shall be posted on the Controller website <https://sf.gov/topics/budget>.

Iftikhar Hussain, SFHSS Chief Financial Officer presented the following items

- Overview: Health Benefits Trust, General Fund, Healthcare Sustainability Fund
- Mayor's Budget Instructions to Departments
- CCSF Forecast
- Reasons for Projected Deficit
- Calendar 2023
- Opportunity for Public Input

Commissioner Follansbee noted that Governor Newsom announced the California State Budget will be in a \$220 billion deficit. He asked if the Mayor's Budget takes into account the potential decrease revenues from the State. Iftikhar Hussain said the Mayor's Office said the Governor may revise the support the City receives and anticipates more information coming from the state. President Scott asked if the Board will need to resubmit the budget if there are revisions from the State. Iftikhar Hussain said he will ask the Mayor's Office how if the department will need to resubmit the budget in the State sends revisions. President Scott noted the Board will vote on the budget next month, likely without the Governor's revisions, and asked if next month is the only time the Board has the opportunity to solicit requests or changes. Iftikhar Hussain said the Board

only reviews and approves the budget in February. The Health Service Board will review the Mayor's revisions at the Health Service Board June meeting before the budget goes before the San Francisco Board of Supervisors for final approval.

Rin Coleridge noted the presentation was updated since the posting date last week and posted on the webpage for the public. President Scott asked when there will be more information on the individualized fee. Rin Coleridge said the Health Service System sets the fee and some organizations set the cost at the time it would take for the individual to copy the materials and the cost of the copies. Rin Coleridge said there haven't been any requests in their tenure as the privacy officer and the department will evaluate the appropriate fee to meet the deadline to comply. President Scott asked if he understood the process correctly: the person can make an appointment, come into the office to look at documents, and take pictures and photocopies. Rin Coleridge confirmed and added that the person can take notes as well. President Scott asked when the new regulations will come into effect. Rin Coleridge said the new regulations will possibly come out in March.

Commissioner Zvanski asked how the Health Service System verifies the individual who has made the request. Rin Coleridge said the Health Service System collects information such as date of birth, address, names, and/or social security if needed. Commissioner Zvanski said members may have dependents under their coverage and asked how individual HIPAA is protected. Rin Coleridge said every individual has HIPAA rights so a member can not look at a spouse's information or vice versa without submitting a form to grant permission. The Health Service System encourages members to complete the HIPAA forms found on the website to designate who can view member records. Rin Coleridge said if two members under the same coverage make an appointment together the formal approval is waived but this may be a situation that needs to be formalized. Commissioner Zvanski asked if the individual HIPAA rights include adult dependents adult dependent children or other adult dependents. Rin Coleridge said all adult dependents have individual HIPAA rights.

13. APPROVE THE JUNE 30, 2022 INCURRED BUT NOT REPORTED RESERVE (IBNR) AND CONTINGENCY RESERVE AMOUNTS FOR SELF-FUNDED AND FLEX-FUNDED HEALTH PLANS (Action):

June 30, 2022, Incurred But Not Reported Reserve (IBNR) and Contingency Reserve Amounts for Self-Funded and Flex-Funded Health Plans Report is available on the SFHSS webpage <https://bit.ly/3ZZyHJq>

Mike Clarke, Aon presented the following items:

- Background-Three Reserves for SFHSS Self-Funded/Flex-Funded Plans
- Today's Discussion-IBNR and Contingency Reserves
- IBNR Reserves as of June 30, 2022
- Contingency Reserves as of June 30, 2022
- Today's Recommendation

Mike Clarke said in the fall of 2022 the auditor noted a discovery of unmapped UHC claim activity for early retirees during 2022 for the Non-Medicare PPO plan, attributable to plan coding changes for UHC-administered lives in the Non-Medicare PPO plan after the transition of the majority of plan administration for the PPO to Blue Shield. If this had been discovered at the time of Aon's IBNR calculations for this plan in August 2022, it would have resulted in a higher Non-Medicare PPO plan IBNR figure by a little over \$1 million, attributable to early retirees. President Scott asked what process is in place so that there won't be a reoccurrence in the future. Mike Clarke said this coding issue did not impact the 2023 plan rating given the coding issue did not affect the 2021 plan experience used for the 2023 PPO plan rating. Mike Clarke said there is now full awareness of the coding discrepancy discovered by the auditor, so the 2022 plan experience that Aon will capture from UHC will be fully recognized in the 2024 Non-Medicare PPO plan rating (along with Blue Shield experience for this plan, also). Mike Clarke said the auditors didn't find enough of a significance in the impact on the PPO plan IBNR value to request a restatement of the reserve calculation. Iftikhar Hussain said MGO did not request a financial statement recast because the amounts were determined not to be significant. Iftikhar Hussain reassured the Board that the Health Service System will use a new structure so there are no future occurrences.

Mike Clarke said the final recommendation as of the end of the fiscal year is \$32.6 million. If the unmapped claims had been properly captured at the time Aon performed the Non-Medicare PPO plan IBNR calculation, the recommendation would have been around \$33.7 million, or an incremental difference of \$1.1 million. MGO did not ask for a financial statement recast with that incremental \$1.1 million. Commissioner Zvanski asked if there is an outstanding amount. Mike Clarke said there is no outstanding amount. President Scott asked if the auditor found this issue to be material for their report after they found the unmapped claims. Iftikhar Hussain said MGO did not report any issues and the next calculation will reflect all claims.
