Discussion:

Commissioner Scott asked, knowing there was suppression in medical service utilization in 2020 due to the pandemic, if there any trends to indicate costs and services are returning to pre-pandemic levels. Mike Clarke said Aon is tracking trends closely overall, and there was some acceleration of costs due to Omicron variant and care related to that at the end of 2021 and beginning of 2022. Mike Clarke said there is evidence of return to care overall, though there are instances where it may be difficult for members to secure timely care appointments for certain services, such as elective orthopedic surgeries.

Discussion:

Commissioner Breslin requested for the next Health Service Board meeting that Delta Dental consider adoption of assignment of benefits for out-of-network providers for active and retiree PPO plans. Commissioner Breslin recalled for the Retiree PPO plan the increase several years ago in deductible for Premier and Non-Contracted dentists from \$50 to \$75, and asked for clarification of what additional benefits the deductible increase offered Retiree PPO members as there was not a recollection of decrease of premiums for that deductible change.
