Aon | Aon Hewitt | Health & Benefits

Aon Hewitt Health Value Initiative (HVI)TM

- **The Aon Hewitt Health Value Initiative (HVI)TM Database**, launched in 1996, captures health care cost and benefit data for:
 - 7.3 million health plan participants
 - 375 organizations
 - 1,260 health plans
 - \$38.2 billion in health care expenditures*
- **Aon Hewitt's Pharmacy Cost Database** provides prescription drug cost data for organizations nationwide.
- **Aon Hewitt's Plan Design Database (PDD)** allows analysis of prevalence of plan design features.

* Note: Total number of employers is dynamic and changes as clients are added or removed from the baseline.

 **City and County of San Francisco Health Service System (HSS)**
HSS' costs are based on the employers actual premium rates for fully insured health plans; Self-insured plan costs are based on HSS' funding rates which reflect the projected claims and administrative costs

 **Government / Education Industry (Gov / Edu)**

 **Organization Size (25,000+)**
Client size reflects a weighted average of other employers that are a similar size in terms of enrollment

 **Fortune 500**

 **Labor Market**

 **HVI**

Annual Healthcare Costs

- HSS pays on average \$11,628 annually for healthcare premiums for its members, which is the highest within the peer group. This represents 85% of the total cost.
- HSS members pay 10.2% of the premium as compared to an average of 19.0% with the peer group
- HSS members pay less out-of-pocket for their care, \$660 versus an average of \$2,013

Health Plan Costs Per Employee—Overall

Financial Index

- The financial efficiency of the HSS plan may be a better comparative measure than per member costs. The Aon Hewitt Financial Index (FI) removes the cost differences caused by three main factors: population demographics, richness of plan design, and geographic location.
- The FI reflects administrative costs and care management effectiveness. A FI greater than 100% reflects better-than-average financial efficiency.
- The HSS FI exceeds the peer group.

Financial Efficiency—Overall

	HSS	Public	25,000+	Fortune 500	Labor Market	HVI
Financial Index	116.7%	105.3%	100.0%	99.6%	100.0%	100.0%
Enrollment	38,754	596,539	1,760,395	1,602,657	424,955	3,429,275
