COVID-19 diagnostic testing

Testing plays a major role in fighting COVID-19 — for your health, the health of our communities, and to help safely reopen businesses, schools, and more. Kaiser Permanente has greatly increased our COVID-19 testing capacity and offers testing for both asymptomatic and symptomatic members.

We recommend getting a diagnostic test if you currently have symptoms or if you have been exposed to someone with COVID-19 and have not been fully vaccinated.

COVID-19 testing at Kaiser Permanente

When you receive testing at Kaiser Permanente, you get:

- **Easy online scheduling** – testing appointments can be scheduled 24/7 and are usually available within 1-2 days.

- **Convenient access to testing locations** – testing is available at most Kaiser Permanente facilities.

- **Reliable and accurate test results** – usually available within 48 hours, often quicker, depending on demand.

- **New test results automatically saved to medical record** – care teams are notified and can follow-up with members as needed.

Need to schedule a COVID-19 test?

Go online:
Sign in to **kp.org** or use the Kaiser Permanente app and self-schedule a COVID-19 test through an e-visit.
