

Addendum to the 2021 Kaiser Permanente Traditional HMO Plan Combined Evidence of Coverage and Disclosure Form for San Francisco Health Service System Fund

We have made the following revisions to the 2021 Kaiser Permanente Traditional Plan Evidence of Coverage (EOC) for clarity. Please keep this Addendum with your EOC.

Fertility Preservation Services

We have deleted the “Fertility preservation Services” cost share table from the “Cost Share Summary” section of the EOC.

Additionally, we have added the following paragraph to the end of “Fertility Preservation Services” in the “Benefits” section of the EOC:

For covered fertility preservation Services that you receive, you will pay the Cost Share you would pay if the Services were not related to fertility preservation. For example, see “Outpatient surgery and outpatient procedures” in the “Cost Share Summary” section of this EOC for the Cost Share that applies for outpatient procedures.
