# Continuity of Care

## Medical

When you change health plans during open enrollment, you might get to continue your care with your current doctors or medical group. This is called Continuity of Care (COC). You have 60 days after you enroll to request COC. Here is a list of conditions eligible for COC:

- **Acute condition**
- **Serious chronic condition – up to one year of coverage**
- **Pregnancy (includes immediate postpartum care)**
- **Mental health for the person giving birth – up to one year of coverage from diagnosis or the end of the pregnancy**
- **A newborn up to 36 months of age – up to one year of coverage**
- **Terminal illness**
- **A surgery or other procedure authorized by your prior health plan as part of a documented course of treatment**

If you or a family member gets medical treatment from an out-of-network provider for one of the medical conditions above, please complete a COC form as soon as possible. You can find the COC form by visiting [healthnet.com/sfhss](http://healthnet.com/sfhss) >Enrollment>Continuity of Care or by calling member services at 833-448-2042. A representative will help you determine if you're eligible for COC.

## Pharmacy

**New members: Maintain coverage for your maintenance medications and medical equipment (for example, Glucose monitors and CPAP machines) that require prior authorization**

In order to avoid any issues with your prescription in the first 90 days, please complete a prescription transition of care form, available at the Continuity of Care page of [healthnet.com/sfhss](https://healthnet.com/sfhss). For the full list of medications and medical equipment that require prior authorization, please visit [healthnet.com](https://healthnet.com), or contact us at the number on your member ID card.

## Behavioral Health

If you or a family member are receiving mental health services or substance use disorder treatment (inpatient or outpatient), call 833-996-2567 to find out if you can get COC help.
