FSA Glossary

ANNUAL ELECTION AMOUNT

This is the total dollar amount you elect to put into your FSA at the beginning of each plan year.

DEPENDENT

A person whose expenses are eligible for reimbursement through the employee's FSA. A dependent also includes any child of a participant whose 27th birthday will not have occurred by the last day of the current calendar year. Please visit our website www.padmin.com for more information.

ELIGIBLE EXPENSE

Items that are reimbursable under the FSA Plan are classified as "eligible expenses" according to IRS rules. For a detailed list of what is eligible please refer to page 10.

FICA

Taxes collected for Social Security and Medicare benefits.

FLEXIBLE SPENDING ACCOUNT (FSA)

Also known as an FSA; a pre-tax benefit plan that enables the employee to save up to 30-40% on eligible expenses. By enrolling in this plan, the participant saves on state (except in New Jersey), federal and FICA taxes.

GRACE PERIOD

An employer-chosen provision that gives you two and a half months after the end of the plan year to incur eligible expenses, as long as you are actively enrolled as of the last day of the plan year.

HEALTH FSA CARRY FORWARD

An employer-chosen provision allowing unused Health FSA funds to carry forward into the next plan year.

OPEN ENROLLMENT

A designated time, prior to the start of your plan year, during which employees can enroll in the FSA plan and change their benefit elections.

PLAN YEAR

Typically, a twelve month period during which the annual election is effective.

RUN-OUT PERIOD

A period of time after the plan year ends during which participants may submit receipts for expenses that were incurred during the plan year or grace period.

UNIFORM COVERAGE RULE

This rule allows you to access your entire annual election for the Health FSA immediately after the start of the plan year. All other accounts are "pay-as-you-go." This rule only applies for the Health Flexible Spending Account.

USE OR LOSE RULE

An IRS rule which states that employees must spend any remaining balance in their FSA by the end of the plan year. If you don't spend the money, you forfeit it.

Getting Started

FSAs are designed to cut predictable costs while increasing your take-home pay. Maximize your money by taking advantage of this benefit and alleviate high out-of-pocket expenses!

Pro Tip

Use P&A's online FSA calculator to calculate estimated annual expenses and see approximately how much you can save.

Visit padmin.com/tools/fsa-calculator.

WHY ENROLL IN AN FSA

With an FSA, you can use pre-tax dollars to help offset the cost of out-of-pocket healthcare, dental and vision expenses. You can also use the account to reimburse eligible childcare expenses. Please see page 10 for a sample list of eligible expenses.

WHOSE EXPENSES ARE ELIGIBLE?

Under the plan, only the expenses of a participant, a participant's spouse or a participant's dependent(s) qualify for pre-tax treatment. If you are unsure if a person qualifies as an eligible dependent, please refer to P&A's website for a more detailed definition.

ENROLLMENT

Before you enroll, determine the amount of predictable eligible expenses you anticipate on having over the year. Divide the total by the number of pay periods you have in a year and that will determine the amount that is deducted from your paycheck pre-tax.

Bi-Weekly Payroll Example

Total Estimated Eligible Expenses	\$1,250 (Annual)
Bi-weekly Payroll FSA Deductions	25 payroll deductions over 26 pay periods
$\$1,250 / 25$ payroll deductions =	a deduction of \$50 per paycheck

When you enroll in the FSA plan, you lower your taxable income on your W-2; therefore, you pay less in taxes and increase your spendable income. By using the pre-tax money you contributed to the FSA, you can save up to 30% - 40% on those expenses, depending on your tax bracket.

Enrollment Information

WHEN CAN I ENROLL?

Participants can enroll in an FSA during Open Enrollment or when you are newly hired. This is the period of time determined by the employer when employees can elect their benefits and decide how much to contribute to an FSA throughout the upcoming year.

MAY I CHANGE MY BENEFIT ELECTION?

You may only make a change in your election(s) during Open Enrollment. This means you may not make a change in your election(s) after the Open Enrollment period unless you experience a qualifying event, which includes:

- A change in legal status (marriage, death of your spouse, divorce, legal separation or annulment);
- A change in the number of your dependents due to events such as birth or adoption; and,
- A termination or commencement of employment by your spouse or dependent.

Mid-year election changes are permitted to the extent allowed by IRS regulations. Changes must be requested within 30 days of the qualifying event.

Use or Lose Rule

Under IRS guidelines, if you contribute money to a reimbursement account and do not use all of the money you deposit, you will lose any remaining balance in the account at the end of the year. Only contribute money you are confident you will use to pay for eligible expenses during the plan year!

If your employer selects the option to add the grace period provision or Health FSA carry forward provision, the “use or lose” rule will be modified. Please check your Section 125 Cafeteria Plan document through your employer.

Pro Tip

Remember, unless you experience one of the limited circumstances allowing for election changes during the Plan Year, you will not be able to reduce or increase your contribution amounts, nor will you be able to transfer amounts from one account to the other. Please plan carefully before you enroll in this plan!

Will My Social Security Benefits Be Affected by My Contributions to the Plan?

Your Social Security benefits may be slightly reduced because when your pay is reduced to cover your benefits under the Plan, the amount of contributions that are made to the federal Social Security system to provide you Social Security benefits are also reduced. However, for most employees, the reduction in Social Security benefits will be insignificant compared to the value of paying lower taxes today.

Tax-Savings Example

Whether you're an individual, part of a dual-income household or a couple with one working spouse, a Flexible Spending Account will provide you with additional benefits and more take-home pay. See the below examples of how an FSA can save you money throughout the year.

WORKING COUPLE WITH DEPENDENTS

This couple both work. They have two children and make a total combined income of \$114,000. They use the FSA plan to help pay for orthodontia as well as child care for their younger child. The chart shows that this couple increases their monthly take-home pay by \$185 or \$2,220 for the year by participating in an FSA. That gives them additional money for emergency expenses every family has and allows them to set aside some money to fund an additional retirement plan.

COUPLE - ONE WORKING SPOUSE

With grown children and only one working spouse, this couple has no child care expenses. With an annual salary of \$90,000, they use the FSA to meet their health insurance deductibles and to pay for dental care expenses. By participating in an FSA, they increase their take-home pay by \$612 - a nice raise for the family budget!

INDIVIDUAL

In this example, the individual employee earns \$42,000. She uses her FSA to pay for her co-pays, deductibles and vision expenses. By enrolling in an FSA, she increases her take-home pay by \$456. That's additional money she can use for other expenses!

Account Options

Simplify your life and save money with an FSA. We offer a few types of accounts to help you manage specific expenses.

HEALTH FSA

Enroll in a Health FSA to save money on medical, dental and vision expenses for you and your eligible dependents that are only partially covered or not covered at all by insurance.

Eligible expenses include:

- braces
- eyeglasses/prescription sunglasses
- insurance deductibles, co-pays
- OTC medications

When you enroll in a Health FSA, all the money you choose to contribute for the year is available to you right away, on the first day of your plan year. You can get reimbursed for your claims up to that full amount, even if you haven't contributed all of it through your pay yet. This "up-front" availability is special to the Health FSA; other accounts build up your funds with each paycheck.

DEPENDENT CARE ASSISTANCE FSA

Set aside money into this account to pay for dependent care expenses. See page 17 for details on eligible dependents. Childcare expenses are only eligible until the date your dependent child turns 13.

Eligible expenses include:

- after school programs
- babysitters
- caregivers/eldercare
- daycare centers
- nursery schools

- ☒ The Benefits Card works like a debit card. Use the card and your funds are automatically deducted from your account.
- ☒ Your card is activated automatically the first time you use it.
- ☒ The Benefits Card cannot be used at an ATM to withdraw cash.

Letter of Medical Necessity Form

Certain Flexible Spending Account (FSA) items are eligible for reimbursement only if a letter of medical necessity is provided. The letter must include the diagnosis of a medical condition and state that the expense is necessary to treat the medical diagnosis. It must also include the length of treatment. Examples of expenses that are deemed as medically necessary in order to treat a medical condition (and therefore are eligible for reimbursement under the FSA plan) include massages, gym memberships and weight loss programs. Your physician must complete and sign the form below, thereby acknowledging that the medical expense is being used to treat a medical condition.

This form is valid for one year from the date of signature. A new form must be submitted annually.

Dependent Care Guidelines

QUALIFYING INDIVIDUALS

Dependent care expenses must be provided to Qualifying Individuals. A Qualifying Individual is defined as any of the following:

1. A person under age 13 who is your “qualifying child” under the Internal Revenue Code (the “code”). i.e., (a) he or she has the same principal residence as you for more than half the year; (b) he or she is your child or step-child (by blood or adoption), foster child, sibling or step-sibling, or a descendant of one of them; and (c) he or she does not provide more than half of his or her own support for the year.

If you are divorced or separated, you must be the primary custodial parent of your child in order to be eligible for this account (irrespective of whether which parent may claim a personal exemption for the child on his or her federal income tax return). Non-custodial parents may wish to check with your legal or tax advisor to see if special rules apply to you that would enable you to utilize this account.

2. Your spouse if he or she is physically or mentally incapable of self-care and has the same principal abode as you for more than half the year.

3. A person who is physically or mentally incapable of self-care, has the same principal abode as you for more than half the year and is your tax dependent under the Code (for this purpose, status as a tax dependent is determined without regard to the gross income limitation for a “qualifying relative” and certain other provisions of the Code’s definition).

ELIGIBLE EXPENSES

Eligible expenses are defined as those that enable you (and your spouse, if any) to be gainfully employed* or to seek employment. They include the following:

1. Expenses for services provided by a dependent care center (including a day camp) that complies with all applicable state and local laws and regulations;
2. Expenses for the care of a Qualifying individual or for household services attributable in part to the care of a Qualifying individual;
3. Expenses for services outside of your household for the care of a qualifying individual other than a person under age 13 who is your qualifying child, provided that qualifying individual regularly spends at least eight hours per day in your household.

In the case of any expenses for dependent care services provided by a child of yours, that child must be at least 19 years old at the end of the year in which the services were provided.

*If your spouse is a full-time student or is physically or mentally not capable of self-care, he or she is treated as if gainfully employed. A spouse is a “full-time student” if he or she is enrolled at and attends a school for the number of hours or classes that the school considers full time. Your spouse must have been a student for some part of each of five calendar months during the year.

PROHIBITED EXPENDITURES

Expenditures that are prohibited for reimbursement include the following:

1. Babysitting for social events.
2. Educational expenses.
3. Charges for overnight camp.
4. Expenses that you will take as a child care tax credit on your income tax return.
5. Expenses for services provided by your spouse, by a parent of your under age 13 qualifying child or by a person for whom you or your spouse is entitled to claim a personal exemption on a federal income tax return.
